

Magento® mobile

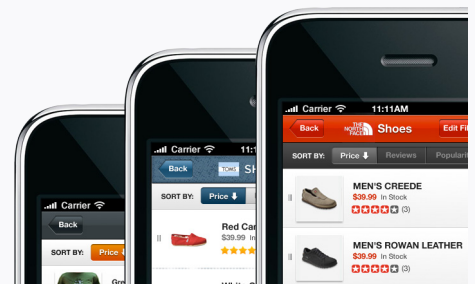

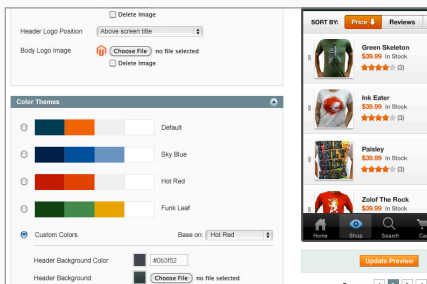

Mobilize. Now.

Easily transform your Magento store into a fully-branded, native iPhone storefront.

- Fully integrated with Magento's product catalog, checkout, customer-account management, and more!
- Easily customize the app to match your brand with the new Magento-mobile admin.
- Simple setup & submission, where Magento submits your app to iTunes and manages it for one low fee.

Why Magento Mobile?

Seamless Integration

With the new Magento-mobile admin, you'll bring the functional powerhouse of Magento eCommerce to your mobile-commerce channel, including full integration with your store's catalog, checkout, inventory, reporting, and much more!

Low Cost of Ownership

Magento's cost-efficient approach allows you to bring best-in-class mobile experience to your customers without the high price tag. Pay only for the features and devices you want while Magento handles the ongoing maintenance of your app in the iTunes marketplace.

Fully Customizable

Deploy new device-specific features and branded themes with just a few clicks. Quickly update the colors and appearance of your app with the new Magento mobile admin, even after customers have downloaded your app.
